

FLOOR MOUNTING PLATFORM - FORD E-TRANSIT 148" WB

Part # : 40475TL

E-Transit Mounting Floor

Composite flooring designed for the Ford E-Transit. The flooring consists of 3-4 composite pieces connected by aluminum extrusion that are laid onto the floor of the E-Transit to use for mounting cargo van equipment to the floor. Installation of the E-Transit flooring prevents the need to drill into the floor of the E-Transit to mount equipment.

Features:

- HolyPan composite flooring is impact resistant, non-slip, strong, and lightweight.
- Lightweight aluminum extrusion is placed in ideal locations for mounting partitions, shelving, and other Holman cargo van accessories using locking T-nuts.
- Installation is quick and easy.

Compatible Items:

All Holman Shelving

All Holman Partitions
